

# Somatotypes

Create a document with the following specifications and information.

1. The document should have a heading on three consecutive pages to represent the three somatotypes.
2. Place at least three of the pictures that represent the characteristics of the somatotype.
3. List the physical characteristics of this somatotype along with other important disease information of this somatotype.
4. Save the document to your p:// drive.
5. When your document is complete, copy the document to the drop box for your class/assignment.

## Grading

- Heading: 3 pts.
  - Pictures: 9 pts.
  - Description: 6 pts.
- Total: 18 pts.
